Yale Lock Kit for System AF70 Bi-Fold Doors

Yale Lock Kit for System AF70 Bi-Fold Doors

Our Lock Kit for System AF70 bi-fold doors features a top quality Yale door lock. It is the ideal partner for Clearspan bi-fold door hardware.

The 28mm backset lock with U-Rail faceplate provides effective locking and compression through a latch and central deadbolt, 2 hooks and 2 linear bolts.

The striker plate sets provide a strong locking connection to the frame.

The kits are available in 'Standard' and 'Long' versions to suit your door. The upper lock case is 136mm further away from the handle on the 'Long' version. Yale recommend using the 'Long' versions on leaves over 2050mm.

Ordering is simple as the lock and striker plate sets are all supplied as a Yale Lock Kit under a single part number.

The correct handing is determined as follows;

LH Kit = LEFT hand hung OUTWARD or RIGHT hand hung INWARD opening door viewed from outside

RH Kit = RIGHT hand hung OUTWARD or LEFT hand hung INWARD opening door viewed from outside

VBH Codes

Description	VBH Code
LH Yale Lock Kit Standard	4QBF1221
