greenteQ Clearspan Bi-fold Door Hardware

The Bi-Fold Door Hardware Solution for System RCF68

The immensely popular greenteQ Clearspan bi-fold door hardware system is now available to suit System RCF68.

Take up of Clearspan on other systems has been huge since its launch in 2013. Manufacturers, installers and end-users alike instantly recognised the many features and benefits that make Clearspan stand out from the crowd.

Manufacturers and installers remark how easy the product is to work with and end users love the smooth operating action and unobtrusive nature of the slimline hardware that shows off the clean lines of the aluminium profile.

There is a supplementary pull handle available for outward opening doors. This fits to a standard hinge and helps the user pull the door closed from inside.

Clearspan hardware is available in white, black and anthracite grey finishes to perfectly match or complement any colour bi-fold door.

greenteQ products all come with a minimum 10 year performance guarantee and Clearspan is no exception.

The greenteQ Clearline furniture range is the perfect partner for Clearspan bi-fold hardware. Clearline includes magnetic catches in 6 finishes as well as the SlimFold and CentreFold intermediate door handle options.

Finally, we offer a slimline Alpha lever set for the main passage leaf, which is ideally suited to the slim lines of an aluminium bi-fold.

Information on all of these products is available to download from www.vbhgb.com.

Benefits at a glance:

- Unobtrusive hardware preserves the clean lines of the slimline profile
- White, black and anthracite grey finishes
- Profile related hardware makes fabrication easy
- 120Kg sash weight
- Integrated brushes keep tracks clean for smooth running
- Proven pedigree
- Full suite of matching Clearline furniture available
- 10 year performance guarantee
