greenteQ Coastline Stainless Steel Door Furniture

greenteQ Coastline Stainless Steel Door Furniture Suite

The greenteQ Coastline door furniture suite builds on the success of our original zinc door handles, letterboxes and Victorian urn door knockers, which are all very popular with fabricators, installers and specifiers alike.

Coastline takes greenteQ to the next level as the products are produced from grade 304 stainless steel to provide exceptional resistance to corrosion.

The Coastline suite comprises our long backplate lever/lever door handle (previously known as Alpha 25), a brand new letterbox and Victorian urn door knockers with or without viewer holes. The suite is completed by our wide range of pull handles and cylinder rosettes from the German greenteQ range*.

Standard Coastline finishes are PVD gold and chrome, and brushed and polished stainless steel.

All Coastline products are interchangeable with our standard Alpha, Omega and Kappa products so upgrading existing doors or running two hardware lines is easy.

All Coastline products are backed by a 25 year guarantee.

Benefits at a glance:

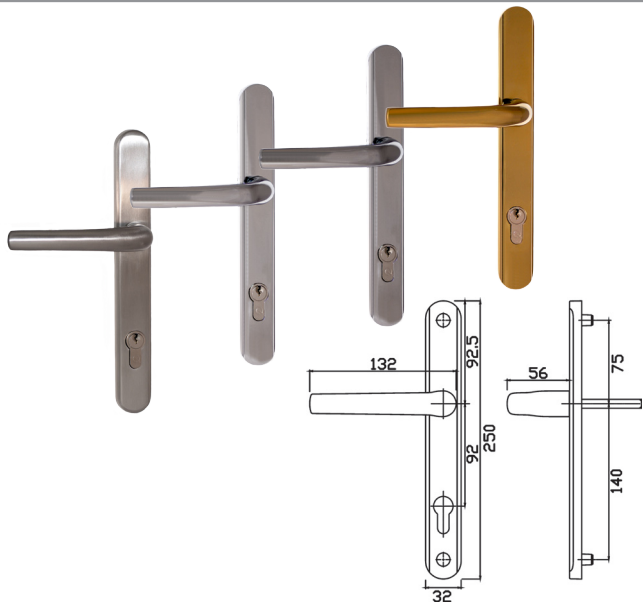

- Grade 304 stainless steel construction for superior corrosion resistance
- Interchangeable with standard greenteQ furniture
- Available in 4 attractive finishes
- 25 year greenteQ guarantee

*Please see our main catalogue for full details of our stainless steel Pull Handle range.
