## greenteQ Orion TS007 3 Star Profile Cylinder

### proteQ10

#### proteQ10 Key Security Scheme / Guarantee

Register your new greenteQ Orion cylinder lock for its 10 year performance warranty and proteQ10 Key Security Scheme within 28 days of purchase. proteQ10 allows you to set your own password (known only to you), meaning keys can only be cut or purchased when the password is given, adding an extra layer of security.

When you register for proteQ10, you also receive our Anti-Snap guarantee. If your home is broken into as a direct result of the lock snapping within 10 years of purchasing your Orion lock, we will pay you £2000, subject to terms and conditions.

### greenteQ Orion TS007 3 Star Profile Cylinder

The Orion from greenteQ is the latest TS007 Kitemark approved profile cylinder available from VBH. It offers full 3 star protection.

It is a premium quality product that features effective protection against bumping, picking and drilling, as well as the snap and extract method. This is all achieved without the need to fit any supplementary security devices.

The external side features a sacrificial break point to hamper attempts to gain entry by snapping and extracting the cylinder. Once this has broken away, the interlocking mechanism engages to prevent further damage to the cylinder. This achieves the security function, and the safety of those inside the building is assured as the interlock can be over-ridden by turning the key through 360° or, in the case of a thumb-turn cylinder, by pushing in the button on the thumb-turn knob and rotating it. Normal unlocking and exit can now take place.

The external end is clearly marked with the Kitemark and 3 TS007 stars to deter any would be burglar.

Orion is available in bright nickel and brass finishes, in key/key and thumb-turn variants, and also in keyed alike pairs.

Each cylinder is supplied with 5 Q-branded dimple keys, while keyed alike pairs are supplied with 6 keys. Additional cut keys can be obtained from the approved online suppliers listed on the Orion page of [www.qsecure.co.uk](http://www.qsecure.co.uk).

Each Orion cylinder has a 10 years mechanical warranty. The cylinder must be registered online at [qsecure.co.uk](http://qsecure.co.uk) for the warranty to be valid. When the cylinder is registered, it is automatically also protected by the proteQ10 anti-snap guarantee and should be registered for VBH's Key Security Scheme.

Under the Scheme, additional keys can only be purchased if the customer's unique personal password is given. The password is set up when the cylinder is registered for its performance guarantee. This is an extra layer of security for the home owner.

proteQ10 guarantees that if a successful break in is achieved as a result of the Orion cylinder being snapped and then extracted, VBH will pay the home owner £2000 in compensation. This is in addition to any protection offered by VBH's Q-secure consumer security guarantee which will pay the consumer in the event of a break in.

More on Q-secure can be found at [www.qsecure.co.uk](http://www.qsecure.co.uk).
